

# Master in Management and Business Engineering

**NEXT INTAKE: SEPTEMBER 2025**

Do you have a background in technical or scientific Engineering and want to enhance your profile with managerial skills?  
This programme is designed just for you!

Campus  
**LYON**

Course Language  
**ENGLISH**

Duration  
**24 MONTHS**  
18 months academic  
+ 4-6 months internship

## PROGRAMME HIGHLIGHTS

1. Build a solid foundation in management to complement your technical expertise
2. Take advantage of an accelerated 18-month programme to join rapidly the corporate world
3. Gain professional experience and obtain a recognised Master's Degree
4. Attend a programme endorsed by prestigious companies such as IBM and DASSAULT SYSTÈMES

## CAREER PERSPECTIVES

The programme content opens up career opportunities in consulting, project management, analysis and strategy, and business development within complex industrial environments.

## Programme Goals

Leading industrial and tech companies face significant recruitment challenges in finding hybrid profiles that combine technical expertise with managerial skills.

The Master in Management and Business Engineering offers a comprehensive education for graduates with a Bachelor's Degree, equipping them with the ability to understand and manage the organizational, human, and strategic aspects of a business. This essential combination prepares future managers to lead teams and effectively oversee complex projects. Following a Management training within 12 months focusing on the industrial

and technological sectors will help you acquire all the essential managerial skills to rapidly advance in your career, sustained by a final 4-month internship minimum. As a part of the curriculum, enhance your international experience with **French as a Foreign Language (LFE)** courses, offered throughout the programme to help you integrate seamlessly into the French culture and professional environment.

This pathway offers you the unique opportunity to earn a double Degree from a prestigious institution: the Master in Management and the MSc in Business Engineering from ESSCA.

## ESSCA Scholarships and Financial Support

ESSCA's goal is to recognize and recruit the most talented individuals wherever they may be, regardless of their background or financial situation. We offer partial scholarships to support academic excellence and non-academic achievement and Early Bird waivers to our international students.

## INTERNATIONAL

## LEARNING ENVIRONMENT

Our international Faculty deliver a unique, panoramic view of current issues of business and management, bringing different perspectives and guiding students to put their theoretical learning into practice through national and international work placements and internships.

We pride ourselves on being a dynamic, supportive, global community with 21,500 alumni present world-wide. ESSCA counts 7,000 students on its campuses, including a vibrant community of international and exchange students.

We have learnt from experience that studying abroad can be a daunting experience, so we provide support to international students before and on arrival to our campus through our International Welcome Desk.

ESSCA has been awarded the Campus France "Bienvenue en France" certification for the quality of the international student experience.

## Rankings

# 1<sup>st</sup>

In France, in the ranking of the best post-baccalaureate schools for its 5-year Masters programme (Le Parisien Étudiant, May 2024)
